RE: Legal Opinion Regarding Amendment Within Scope Of Prior Resolution

Date: September 12, 2012

This amendment is within the scope of the prior resolution approving the lease to the United States whereby the City acts as landlord, and adds no greater cost to the City (as the City is being reimbursed fully by the United States for this work, and there is a cap as to the cost of the work, which can be increased only to the extent the United States issues additional funds). Accordingly, it can be approved administratively.

Based on the information I have reviewed, it is my opinion that this amendment is within the scope of the prior resolution approving the lease to the United States whereby the City acts as landlord, and adds no greater cost to the City (as the City is being reimbursed fully by the United States for this work, and there is a cap as to the cost of the work, which can be increased only to the extent the United States issues additional funds). I am hoping to have a revised supplemental agreement for you to see when we meet at 5:30. I also want to confirm with you that it is permissible to enter into this supplemental agreement without going to Commission, as it increases the agreed upon scope of work all at the Tenant's expense.

Thanks

Please add this language:

Payments to the Architect/Design Consultant and General Contractor shall be made based on monthly percentage of completion invoices. These progress payments will be based on an approved Schedule of Values which, in the case of the Architect/Design Consultant, will be milestones from conceptual design through construction administration and, in the case of the General Contractor, will be based on the line items that make up the construction contract amount.

Can you also add a signature line for Lessor for the City Attorney. It should say:

Approved as to form and legal sufficiency

As discussed, their scope of work is attached. This is what they want to put in the agreement. Please provide me with any comments. Thanks.
